

Delivered foundation

LimbuOCR reference implementation

Sirijonga ft-v2
page/PDF/book pipeline
Unicode + JSON/Markdown
review and audit artifacts

Scientific completion gates

Validated two-writing-system Limbu

native-reviewed Sirijonga gold
visible Devanagari-Limbu pages
30+ independent pages
book-scale review-burden study

Longer research horizon

Nepal low-resource OCR platform

registry-driven script models
newspapers, books, and captures
tables/figures + selective fallback
community-governed evaluation

**Reusable method: source audit → paired evidence → script model
page reconstruction → review → measured improvement**
